Forum to examine the task of rebuilding rural infrastructure

OAK BROOK, IL Sept. 29, 2017: The task of rebuilding the infrastructure of rural America will be examined at the Farm Foundation® Forum on Tuesday morning, Oct. 3, 2017.

“This Forum is an opportunity for a meaningful conversation on what will be required to move from identifying the work needed to improve our rural infrastructure, to making those improvements a reality,” says Constance Cullman, President of the Farm Foundation. “The improvements won’t happen overnight but the conversations and discussions of the issues need to begin now to aid the decision making processes of our public and private leaders.”

Forum panelists will provide perspectives on the critical role of the broadband superhighway, rural transportation needs, financing options and how infrastructure impacts rural businesses and communities. Panelists will be:

- Mark Burton, Director of Transportation Economics at the University of Tennessee’s Center for Transportation Research.
- Robbie Boone, Vice President of Government Affairs at the Farm Credit Council, one of the member organizations of Rebuild Rural.
- Nick Tindall, Director of Government Affairs with the Association of Equipment Manufacturers, which recently completed a member task force report on infrastructure.
- Jannine Miller, Senior Advisor for Rural Infrastructure, Office of the Secretary, USDA.

Cullman will moderate the discussion. After comments by the panelists, the floor will be opened for questions and discussion.

The Forum will be 9 a.m. to 11 a.m. EDT in the Holeman Lounge at the National Press Club, 529 14th Street NW, Washington, D.C. A free live audiocast will also be available.

There is no charge to participate in the Oct. 3 Forum, but registration is requested.
