A photograph of several large, cylindrical hay bales in a desert environment. The bales are made of dry, golden-brown straw and are bound with blue plastic. They are resting on a surface of reddish-brown sand and soil. In the background, there are rolling sand dunes and some sparse, dry grass. The lighting is warm, suggesting late afternoon or early morning. The text "Jimmy Kinder" and "Kinder Farms" is overlaid in white on the lower left side of the image.
