

## Seeders Network

Corporate Partnerships

### ABOUT US

Farm Foundation is an accelerator of practical solutions for agriculture. Our mission is to build trust and understanding at the intersections of agriculture and society.

For the past 90 years, Farm Foundation has brought a wide range of people to the table to tackle some of the most pressing issues in food and agriculture. From issues like soil health, clean water, and antimicrobial stewardship to farm structure, food pricing, and trade, Farm Foundation has been behind the scenes, assisting leaders in the private sector and government make thoughtful, informed decisions.

### OUR PARTNERS

### ABOUT SEEDERS

Farm Foundation Seeders want to improve the entire food and agricultural value chain through open dialogue, unbiased information, and innovation. Seeders also want to invest in the next generation and food and agricultural leaders by helping them build strong, multigenerational, multi-stakeholder networks that will have impact today and well into the future.

Seeders also believe there is room at the table for everyone who wants to make agriculture sustainable, equitable and profitable.

### JOIN US

By becoming a Farm Foundation Seeder today, you will be providing unrestricted resources for Farm Foundation to immediately put to work on programs that support our vision of building a future for our farmers, our communities, and our world. **For an annual contribution, you will be directly investing in accelerating the best people, ideas, and movements in food and agriculture.**

### Opportunities

Seeder Program participants receive exclusive opportunities to engage with Farm Foundation:

- Complimentary registrations to two Round Table meetings each year
- Quarterly Seeder Summits themed around key topics for discussion
- Regular communication of updates through our Catalyst newsletter
- First look at new reports, white papers, and project collaboration opportunities
- Connection and mentoring opportunities with our Next Generation programs
